

All in One Inverter and Lithium Battery For Residential Solar

- ✔ Rated Capacity:5.12KWH/16KWh
- ✔ Single Cell Capacity:100/280/304/314Ah
- ✔ System Configuration:1P16S
- ✔ Rated Current:50A/150A
- ✔ Weight:Approx. 49Kg/135KG
- ✔ Dimensions:560*487*932mm
- ✔ Protection Level:IP54
- ✔ Display:System status information
- ✔ Photovoltaic Inverter Power:10KW
- ✔ Low Voltage Switch:Yes
- ✔ DC Switch:Yes
- ✔ PV Input:PV1/PV2
- ✔ AC Input:AC220V/50HZ
- ✔ AC Output:AC220V/50HZ
- ✔ Accessories Base:Yes
- ✔ Wall Mounting Kit:Yes

Product Introduction

The CTECHI All-in-One Residential Energy Storage System (ESS) combines cutting-edge LiFePO4 battery technology with a powerful off-grid or hybrid inverter, offering an efficient and compact energy storage solution for modern homes. Designed for seamless integration with off-grid or on-grid and off-grid applications, this all-in-one system simplifies energy management by connecting directly to existing PV panels, mains power, and even diesel generators. It provides a reliable and eco-friendly way to store excess solar power during the day and deliver uninterrupted energy during peak hours or outages.

Superior Performance and Longevity

Equipped with premium LiFePO4 battery technology, the system delivers over 6000 cycles, ensuring durability and reliable performance for years. UPS-level switching within ≤10ms, it provides uninterrupted power for critical loads.

Compact All-in-One Design

This integrated solution combines the inverter and battery, eliminating the need for complex installations. It supports direct connection to PV panels, the grid, and additional power sources, offering flexibility and ease of setup for residential energy storage systems.

Advanced Technology and Scalability
